2 Background

Pradhan Mantri Kaushal Vikas Yojana (hereafter referred as PMKVY) 2016-2020 is a flagship scheme of Ministry of Skill Development and Entrepreneurships (hereafter referred as MSDE) was launched in year 2016 with an outlay of Rs 12000 crore to train 1 crore youth of the country. PMKVY Scheme is being implemented by the state governments along with central government through two components – CSSM and CSCM. A target of 20.5 lakh was allocated to states under the CSSM component wherein the SSDMs are responsible for the formation of institutional capacities at state/ local level and working as the implementing agency in entire scheme. Under the CSCM component, the target of 79.5 lakh candidates was assigned to NSDC.

Since the launch of the scheme, NSDC has been allocating targets under all three format of training component of the scheme to accredited and affiliated training centres as per the PMKVY guidelines and subsequent directions of PMKVY Executive Committee and Steering Committee.

Annual Target Allocation for CSCM component FY19-20 is to be done through routes like RFP and performance-based re-allocation. Below is a list of categories that will be covered for allocation:

- a) Request for proposal (RFP) for new organisations
- b) Pradhan Mantri Kaushal Kendra (PMKK)
- c) Academic Institutions, Govt MoUs (including direct onboarding of government institutions), ScPWD & Employer led short term training, CB scheme
- d) Performance based Target Reallocation for existing PMKVY TCs (includes re-allocation for TPs selected in 2018-19 RFP)

This RFP concerns the RFP route for target allocation to give opportunity to new organizations who have not been associated with PMKVY 2016-20, to incentivize well performing existing TPs and to invite organizations for employer led models.

The aim of providing target via the RFP route, is to promote high quality educational institutions, reputed philanthropic organizations, not for profit organizations, new training providers, who have not been associated with PMKVY 2016-19. The RFP will also consider target allocation to well performing existing TPs to incentivize them. Proposals aim to bring organization working in aspirational and underserved district (Annexure 17.5) especially with marginalized community. Further, targets under Employer led model will be allocated to the proposals submitted either by employers or other organizations in consortium with employers. RFP mode aims for wider skilling outreach through target allocation across regions and geography.

This will also include evaluation of their plans of providing placement of trained candidates in terms of number of trained candidates proposed to be employed with the firm, salary levels etc.

The weightage of this parameter is 50 points on the base of total 100 points and these 50 points will be apportioned from the 100 point of the Employer as Training Provider as explained in S. No 1.

Part A2 (TP Organization strength) Evaluation based on elements related to the Training Provider (Weightage -30%)

7 Allocation of project Target

Ensuring the geographical distribution leading to sector/state balance, the target allocation methodology will be based on state / sector wise targets available. The target allocation exercise will be started only after receiving all applications subject to the last date of proposal receipt and after all the eligible applicant centers have been ranked in each district. Please note that the target allocation for the first time will be done based on this RFP and target re-allocation will be done based on the performance of the training provider.

Evaluation of a proposal as per the evaluation matrix would be considered for allocation of target.

Preference will be given to the following parameters (not in a particular order) (non- exhaustive) while allocating targets:

PMKVY guidelines and/or PMKVY website to be referred for the revised/applicable job roles for PMKVY (FY 2018-20). The targets allocated in particular sector will not be allowed to be changed to another sector post proposal evaluation and target allocation. If the training provider/employer has been allocated targets for the proposed sectors (including underserved), then the training provider/employer will be solely responsible for placement of trained candidates.

The training providers may refer the district sector priority list that will be uploaded in the notices section on official PMKVY website post release of this RFP. This notice will be referred for prioritizing underserved districts in underserved sectors for target allocation to the selected proposals.

Overall target allocation limits for underserved sectors or states may be relaxed in order to provide impetus to that sector or geography. In case all the targets are not exhausted by this exercise as per the above methodology, the decision on allocation of residual targets based on financial outlay availability will be taken at a later stage based on the number of targets remaining as well as sector and geographical coverage of the scheme. The residual target might also be allocated to various other target allocation routes i.e. non- RFP routes available under the scheme.
